**Most important reason for going through all this paperwork**

It is necessary that you submit receipts with the expense form for those expenses for which you are being reimbursed. **Reimbursement of expenses to any individual without adequate documentation could jeopardize the Alliance’s tax-exempt status.**

The Internal Revenue Service regulations require that receipts be maintained as documentary evidence for ALL lodging and air fare, regardless of amount, and other expenditures of $25 or more. Travel by automobile must be documented, and exact mileage recorded.

Any individual who receives reimbursement must provide adequate supporting documentation to the Alliance. **If an individual does not provide adequate documentation by receipts, we will be required to issue an IRS Form 1099, since the IRS considers the amount of the undocumented reimbursement as income to the individual.**

**NOTE:** **Always turn in all your expenses.** If your expenses exceed the budget amount, the Budget Chairman may not be able to authorize the full reimbursement. However, knowing your total expenses, including your “out of pocket expenses”, will help when determining future budgets.
