

Missouri Society of Otolaryngology, Head and Neck Surgery

Saturday, March 24

8:00 am	Continental Breakfast
8:00-11:50 am	Program
8:00-8:50 am	Laryngology: In-Office Laryngeal Procedures <i>Joseph Bradley, MD; Randall Paniello, MD; Shannon Kraft, MD</i>
9:00- 9:50 am	Otology <i>Cameron Wick, MD; Arnaldo Rivera, MD; Joshua Sappington, MD; Jacques Herzog, MD; Laura Holden, MD</i>
10:00-10:50 am	Upper Airway Stimulation Surgery for Obstructive Sleep Apnea <i>Christopher Larsen, MD</i>
11:00-11:50 am	Medical and Surgical Approaches in Rhinology <i>Joseph Brunworth, MD; David Beahm, MD</i>
Noon-12:30 pm	Resident Research Presentations <i>David Chang, MD</i>
12:30-2:00 pm	Luncheon/Board Meeting

Objectives

Laryngology: In-Office Laryngeal Procedures

1. Develop an understanding of necessary equipment for in-office procedures.
2. Discuss billing and reimbursement, and how it relates to your site of practice.

Otology

1. Discuss guidelines for cochlear implant evaluation referrals.
2. Describe the difference between traditional and non-traditional cochlear implant candidates.
3. Explain outcomes to improve patient counseling for non-traditional candidates.

Upper Airway Stimulation Surgery for Obstructive Sleep Apnea

1. Describe indications, possible outcomes, and treatment benefit with upper airway stimulation surgery for CPAP recalcitrant OSA patients.

Medical and Surgical Approaches in Rhinology

1. Discuss the etiology of rhinologic disease processes.
2. Discuss various newly developed medical and surgical therapies used to treat rhinology patients.
3. Discuss how these therapies can be used to improve clinical outcomes.
4. Identify difficult rhinology scenarios, and integrate new concepts in the clinicians' treatment algorithm.
